1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Charles W. Peterson, Jr. (Reg. No.34,406) on 4/26/2005.

The following changes have been made to the subject application:

Claim 2:

Line 7: "a chip clock" has been changed to --said chip clock--.

Claim 15:

Line 1, "2" has been changed to --13--.

Claim 26:

Line 11, "comparing means" has been changed to --comparator--.

The changes have been made in order to comply with the 35USC 112, second paragraph and to place the application in a condition for allowance.

2. The following is an examiner's statement of reasons for allowance: the amendment filed 4/15/2005 has overcome the prior art of record. The prior art of record fails to teach or fairly suggest means for synchronizing a clock skip signal from said supply noise sensing means and clock gating means for selectively gating said chip clock responsive to a synchronized said clock skip signal, said clock gating means selectively gating off/forcing on said chip clock to chip circuits as called for in claim 2, supply noise compensation circuit having a delay line, a register, a comparator, and a clock skip circuit as called for in claims 18 and 27, a RC filter averaging

supply line voltage, a comparator and a AND gate as called for in claim 26. Therefore, claims 2-16 and 18-31 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
